2.

(e.g: we have the right boat, the best skipper, the most experienced in the field, have perfected being only two on board, are good enough friends to survive something like that... etc. .)*

Participant folders for uploading media material:

All participants get a folder on google drive at KNS, marked with your sail number. Please use this folder to upload photos and videos of the boat, training, preparations.

We want nice, tough, cool pictures and videos of the boat under sail, both from on board the boat (it doesn't matter if there isn't the "right" crew) and pictures/recordings taken from other boats. Feel free to contact colleagues/competitors who may have good pictures of your boat.
Find the coolest pictures and video clips you have!

We will edit a participant presentation that can be used in connection with the media coverage of the ORC WC in doublehanded in June 2024!

Together we can create the best media event for sailing ever.

Greetings from the KNS media department
